

A close-up photograph of several green leaves, likely from a plant like a corn or similar, showing prominent, parallel veins. The leaves are layered, creating a sense of depth and texture. The lighting is bright, highlighting the vibrant green color and the intricate vein patterns.

Compact Interior

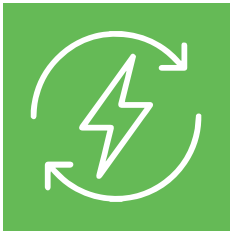

kronospann

Production of Kronospan
Compact Interior boards
compared to standard HPL
board consumes:

72%

LESS CRUDE OIL

56%

LESS ENERGY

90%

LESS WATER

Each leaflet is printed on 100% recycled paper.

CERTIFIED ANTIBACTERIAL SURFACES

High Pressure Laminates
suitable for areas subject to
high hygiene requirements.

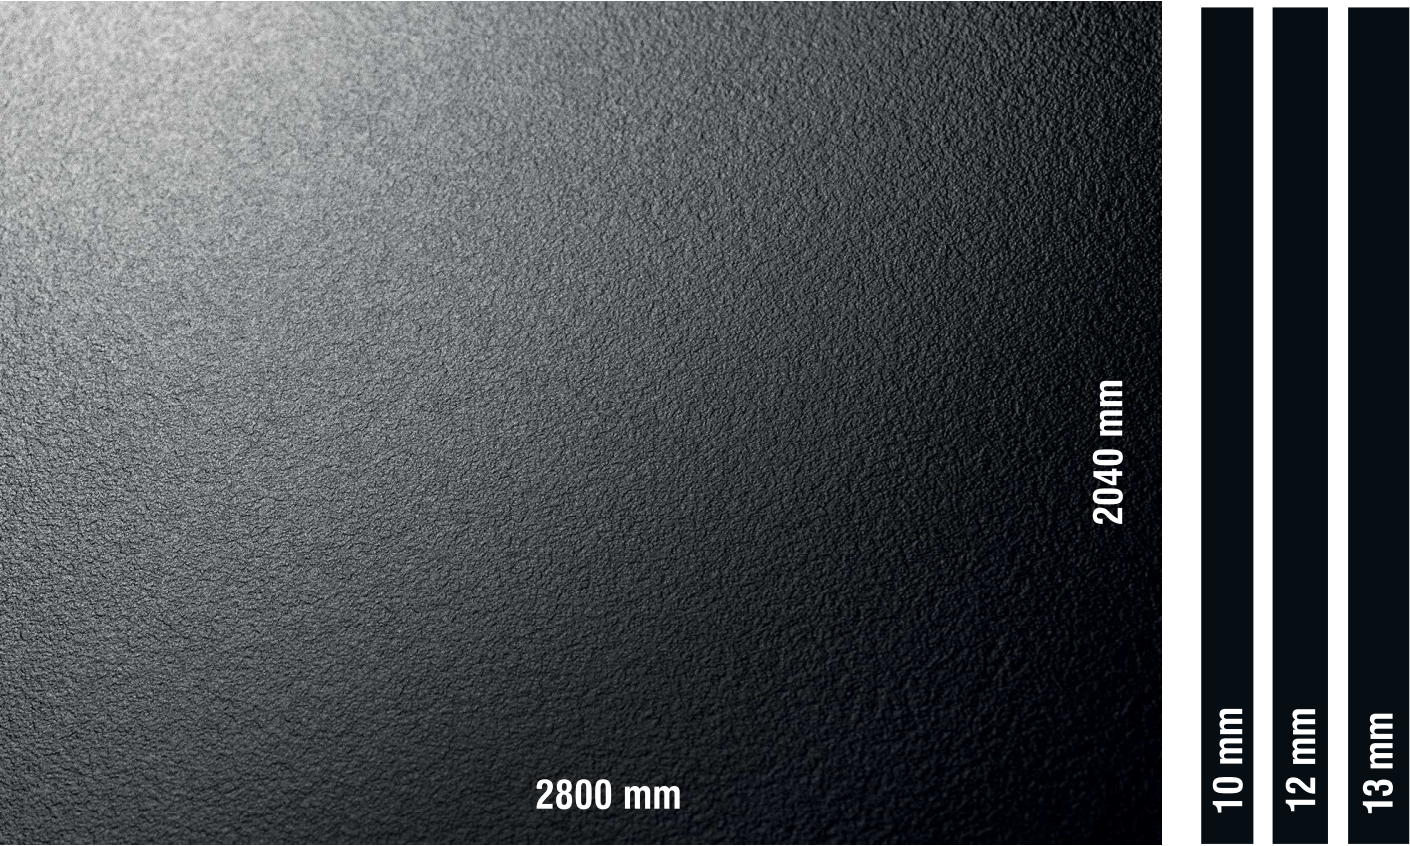

Compact Boards

Compact Boards with black core from Kronospan is a multipurpose board for indoor use.

Their durability, structural strength and moisture resistance make them ideal for interior and commercial applications subject to high impact and moisture, as well as for use in heavy duty areas.
